BRESHEARS

PROFESSIONAL PHOTOGRAPHY

At Breshears, Rich and Mary Ann believe that families are a masterpiece. Life is short; your family's story passes quickly. Children grow up and leave. You blink and they're gone. The blessings in life are too easily forgotten.

Breshears' delight is found in helping clients see and remember the blessings...the beauty and the charm, the joy and the laughter, the love and the grace of a family by creating exquisite portrait art pieces for the home. We create living art of your own family. We create family heirlooms.

◎ *Your Experience*

One of Breshears' true gifts is working with people of all ages. They care about their clients and naturally make both adults and children feel comfortable, confident, and beautiful in front of the camera.

Working with Rich and Mary Ann is personal. They take the time to get to know the family's story...the connections and expressions unique to each person so that they are able to beautifully capture the essence of each personality and create an art piece like none other.

Breshears' portraits are made in a classic style using their expertise of choosing locations and lighting that create timeless masterpieces for generations to enjoy. Rich and Mary Ann bring years of expertise from the world of film photography, where everything had to be precise at the time of capturing the image, and adapts that precision to creating art that stop time. Rich is one of only a handful of Certified Professional Photographers in the country.

○ *Your Investment*

It is Breshears' passion to celebrate and portray the uniqueness of every person that they photograph; to reveal the heart and soul, the love, closeness, and relationship of family in a way that no one else can.

All of our portraits are expertly crafted and meticulously hand finished for uncompromising quality. Each piece four by five inches and larger is mounted on artist board to preserve and protect the portrait, then carefully coated with hand applied glaze finish for life-long protection and to bring out the depth and beauty of the image. Lastly, each piece is beautifully hand edged in a gold finish.

Wall Portraits are bonded to natural fiber canvas on stretcher frames, the same way priceless works of art are displayed in museums. Careful retouching of every image by hand, detailing every feature, creates a final image that you will be proud to display in your home. Each piece is truly a one-of-a-kind work of art.

It has been Breshears' experience that because of the varied poses and expressions, along with stunning backgrounds and lighting, clients interested in only a few gift portraits spend \$500-\$1,000.00. Those interested in a wall portrait with a few gift portraits spend \$1,500.00 or more. Clients who want heirloom art and specialty items spend in excess of \$3,000. It's an investment in your family history.

Everything we do comes with a 100% satisfaction guarantee.

Rich and Mary Ann are so passionate about their work. Life flies by too quickly and they create a family treasure.
